A NEW
CRITICO - PRACTICAL COMPLETE EDITION
of
BACH'S ORGAN WORKS

by
CH.-MARIE WIDOR and DR. ALBERT SCHWEITZER

Price, each volume, Paper \$2.00 *net*
Cloth 3.00 "

This complete edition of BACH'S ORGAN WORKS is an achievement of monumental character. For the first time, the principles—the interpretation—of these works are elucidated; for the first time, two artists are associated for the purpose of explaining the performance of the several compositions in the light of their mature consideration and long experience. The publication of this work is, therefore, an event in the history of organ playing, and this not merely in content, but likewise in form.

The complete edition will consist of eight volumes, each containing upwards of one hundred pages of music, besides the voluminous prefatory matter. All volumes are in the convenient oblong shape, clearly and accurately engraved and adequately spaced, without being so needlessly spread as to necessitate too frequent turning of leaves.

Volume I is now ready for distribution—the remaining seven will appear within a year of the present date.
