COME fu sempre stimata temerità l'impegnare in cose, che non habbian del grande anime grandi, così non può non esser lodato di prudente, chi à quelle Apoggia le picciole, perche ne habbiano insieme, e protezione, e merito. Questa fu la causa, Illustrissima Signora, che io consacrassi al suo nome questi miei Musici componimenti, acciò non potendo hauer lode da chi li diede in luce, aquisstino qualche preggio da chi li protegge. Non doueua la mia seruitù obligata già con tanti titoli alla Signora Marchesa sua Madre passare in altri, che in chi hà hereditate con il sangue la di lei virtù, cui perche fossero più potenti ad incatenarsi ogni cuore, volle, che fossero Armoniche. La solennità di sue fortunatissime nozze voleua, che li miei sudori applaudessero all'unione con sì gran sposo, e che la seruitù, che altre volte fu diuisa, in questo anche comparisse armonia, mentre s'unisce al comune ossequio d'entrambi. Spereranno da quì in auanti felicità, e fortuna le mie fatiche, mentre è loro dato in sorte il loro nome, e se non deuono comparire per non esser buone saranno buone perche son serue. Gradisca dunque V. S. Illustrissima l'ossequio che le tributo, e sappia, che queste mie carte non temeranno alcun oltraggio dall'Inuidia, e dalla obliuione, se haueranno l'honore d'esser mirate da V. S. Illustrissima, la quale si come può emendarne ogni errore come intendentissima di quest'arte, così può come cortesissima per mettermi l'honore di dirmi.

Di V. S. Illustrissima.

Milano li 25. Settembre MDCLXVIII.

Vmillsis. & Deuotis. Seru.

Teodoro Casati.

Die Geschichte des Bauwerks ist eine sehr interessante, die man nicht ohne weiteres übersehen kann. Es ist eine Geschichte, die sich über Jahrhunderte erstreckt und die von vielen verschiedenen Faktoren beeinflusst wurde. Die Baugeschichte ist eine Wissenschaft, die sich mit dem Aufbau und der Entwicklung von Bauwerken beschäftigt. Sie ist eine sehr wichtige Wissenschaft, die in vielen Bereichen Anwendung findet. Die Baugeschichte ist eine Wissenschaft, die sich mit dem Aufbau und der Entwicklung von Bauwerken beschäftigt. Sie ist eine sehr wichtige Wissenschaft, die in vielen Bereichen Anwendung findet.
