

Hymnos

for Symphony Orchestra and Choir

Salvador Torr 

2016

instruments :

Flutes 1.2.3
Tenor recorder
Oboes 1.2.
Cor anglais
Clarinets in sib 1.2.
Bass Clarinet in sib
Bassoon 1.2.
Contrabassoon
Saxophones 1.
Horns 1.2.3.4.
Trumpets 1.2.3.
Trombons 1.2.
Basstrombon
Tuba
Piano
Marimba - Glockenspiel
Vibraphon
Tubular Bells Set (T.B.)
Wood drums (teponaxtli)
Harps 1.2.

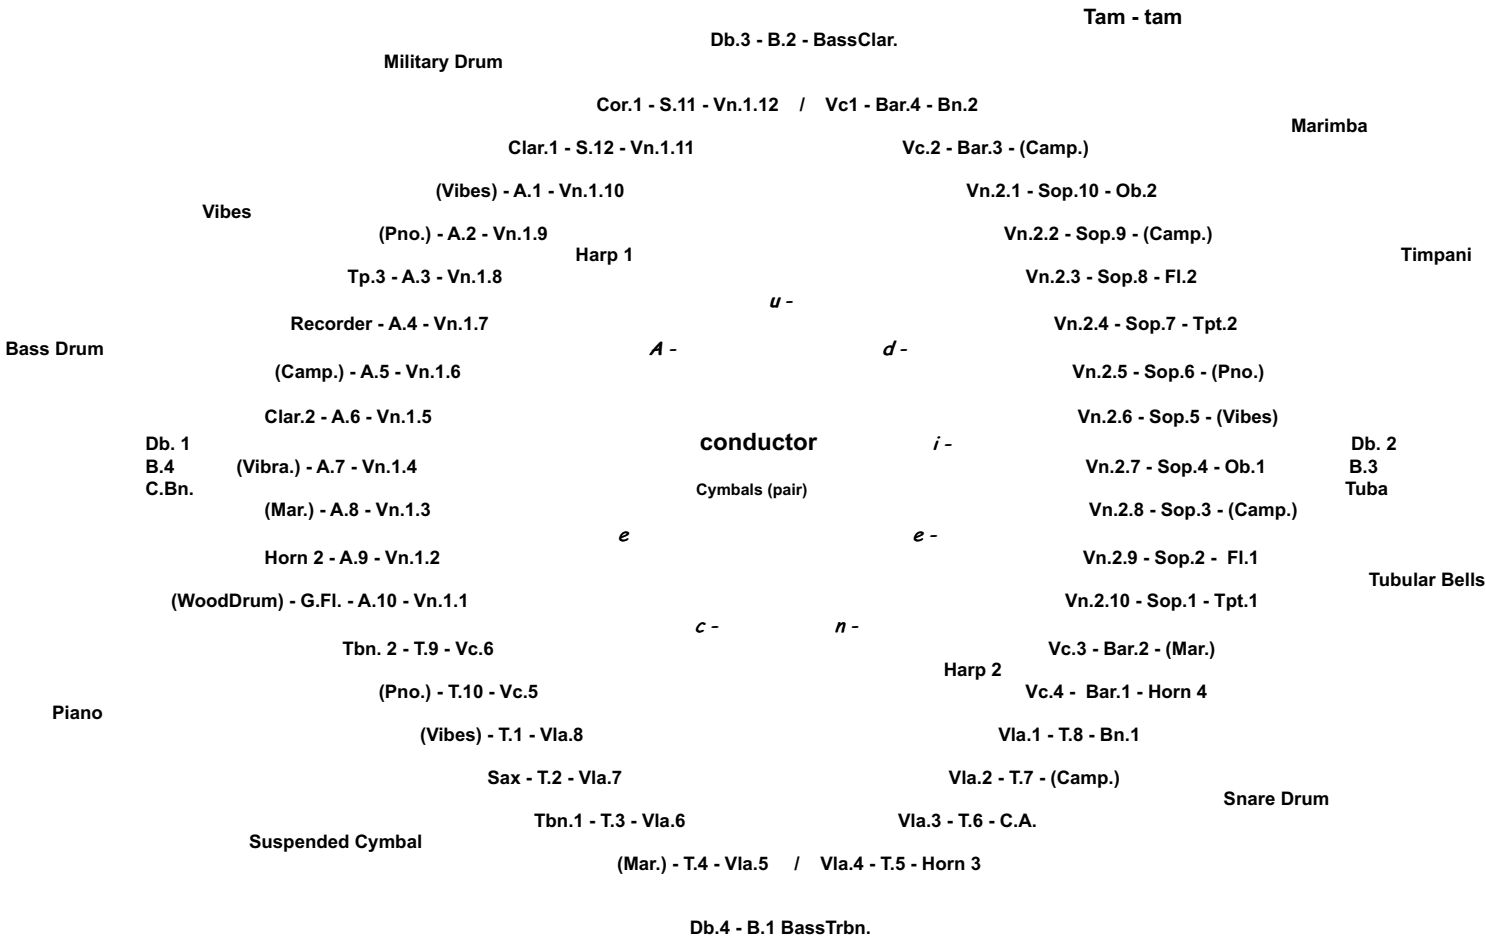

Violins I 12
Violins II 10
Violas 8
Violoncellos 6
Contrabajos 4

Percussion 1.2.3.4.5.6.7.
1. timpani (3), 2. snare drum, 3. military drum, 4. bass drum, 5. suspended cymbals, 6. cymbals (pair), 7. tam-tam
Glockenspiel

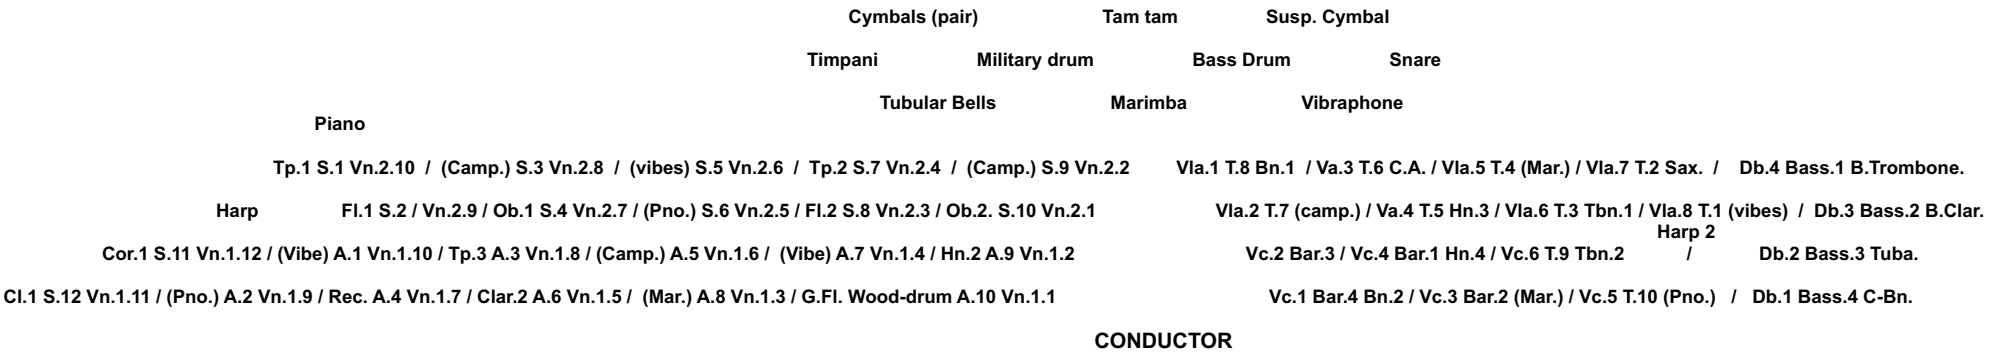

Choir :
Sopranos 12
Altos 10
Tenors 10
Baritons 4
Basses 4

SPATIAL PLACEMENT OF THE INSTRUMENTS

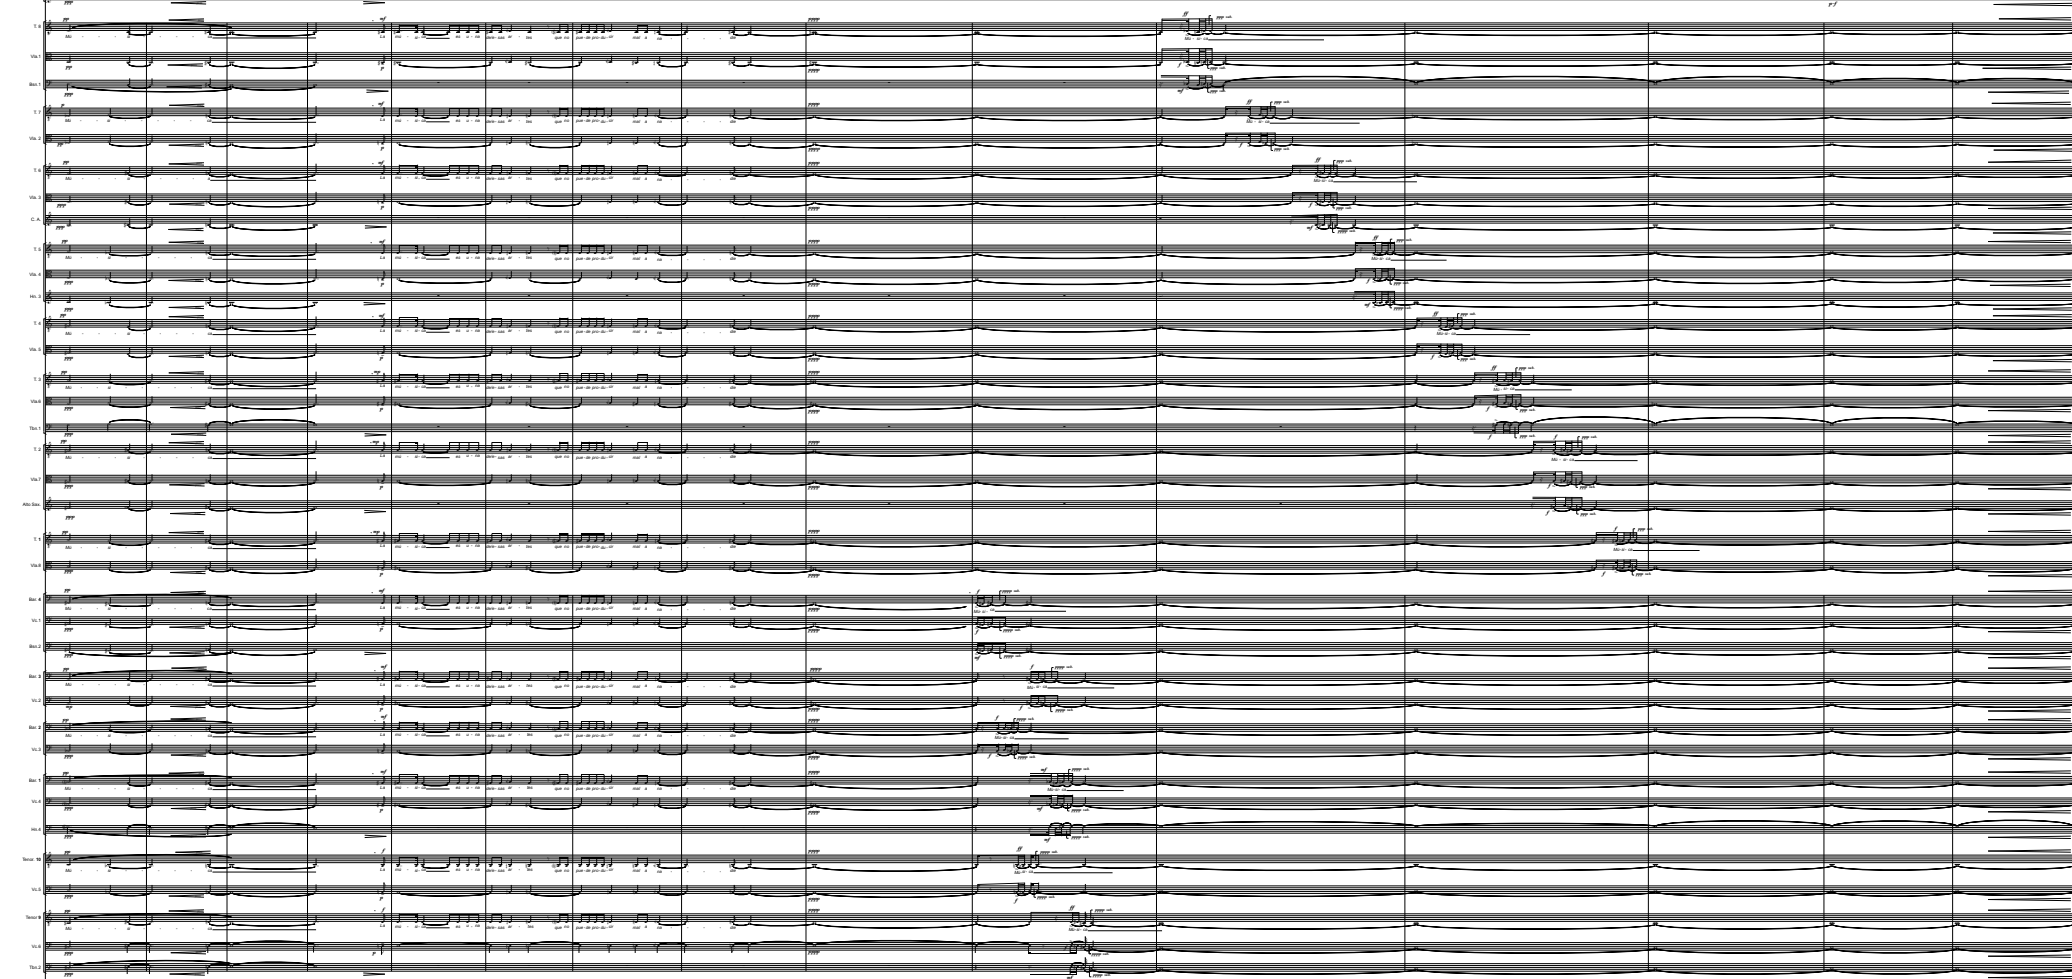

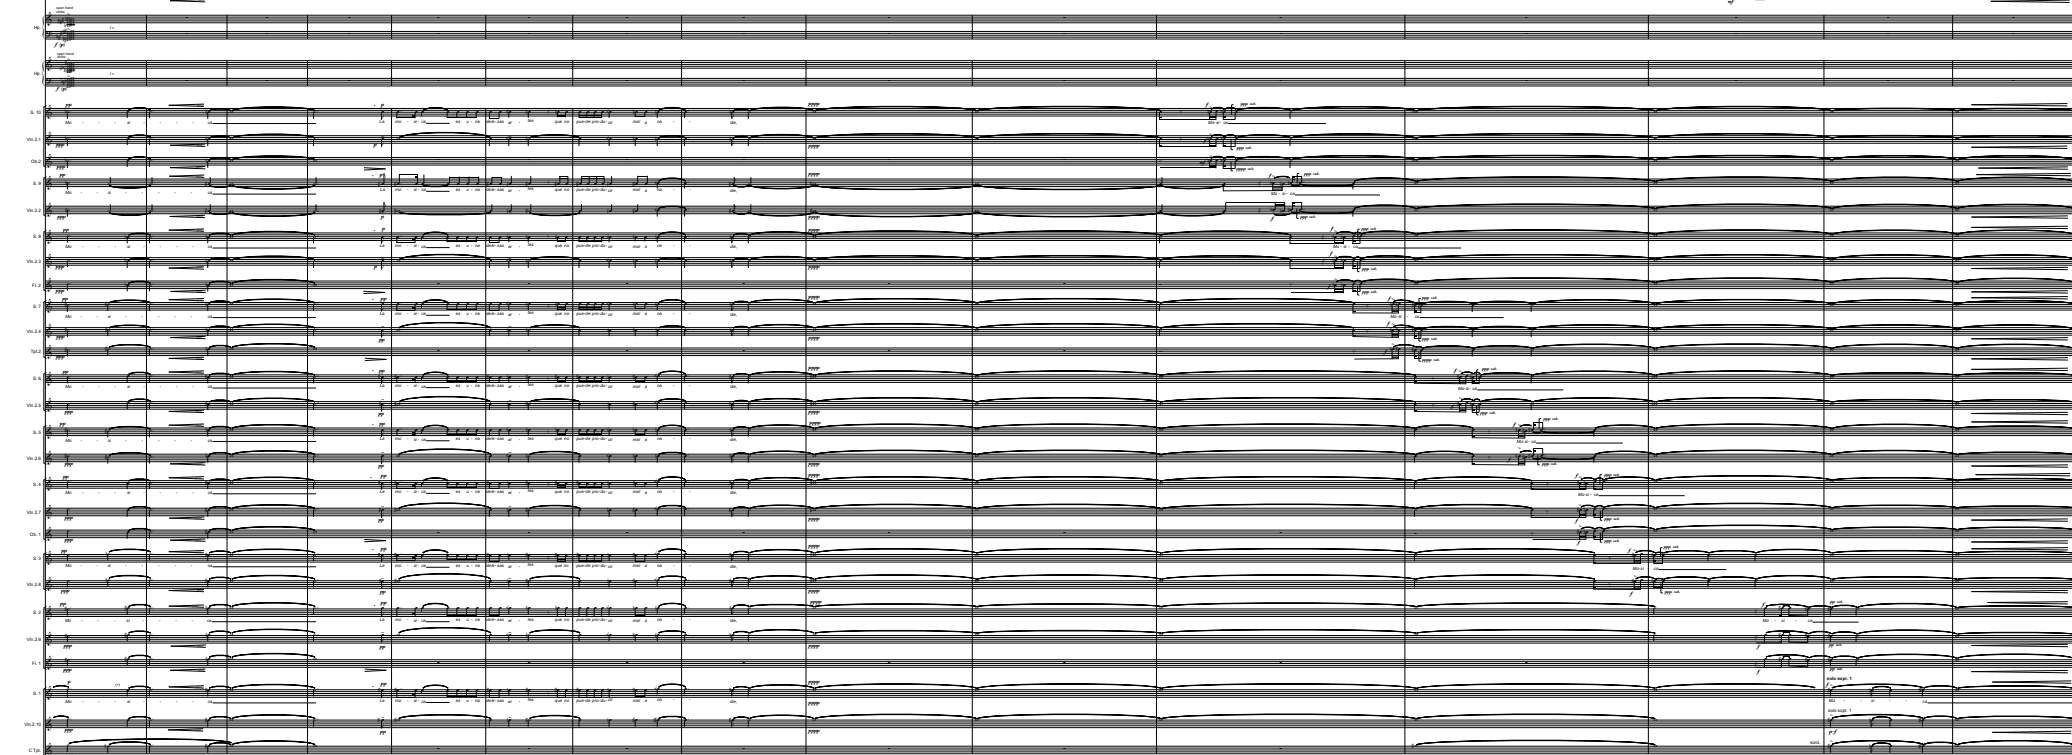

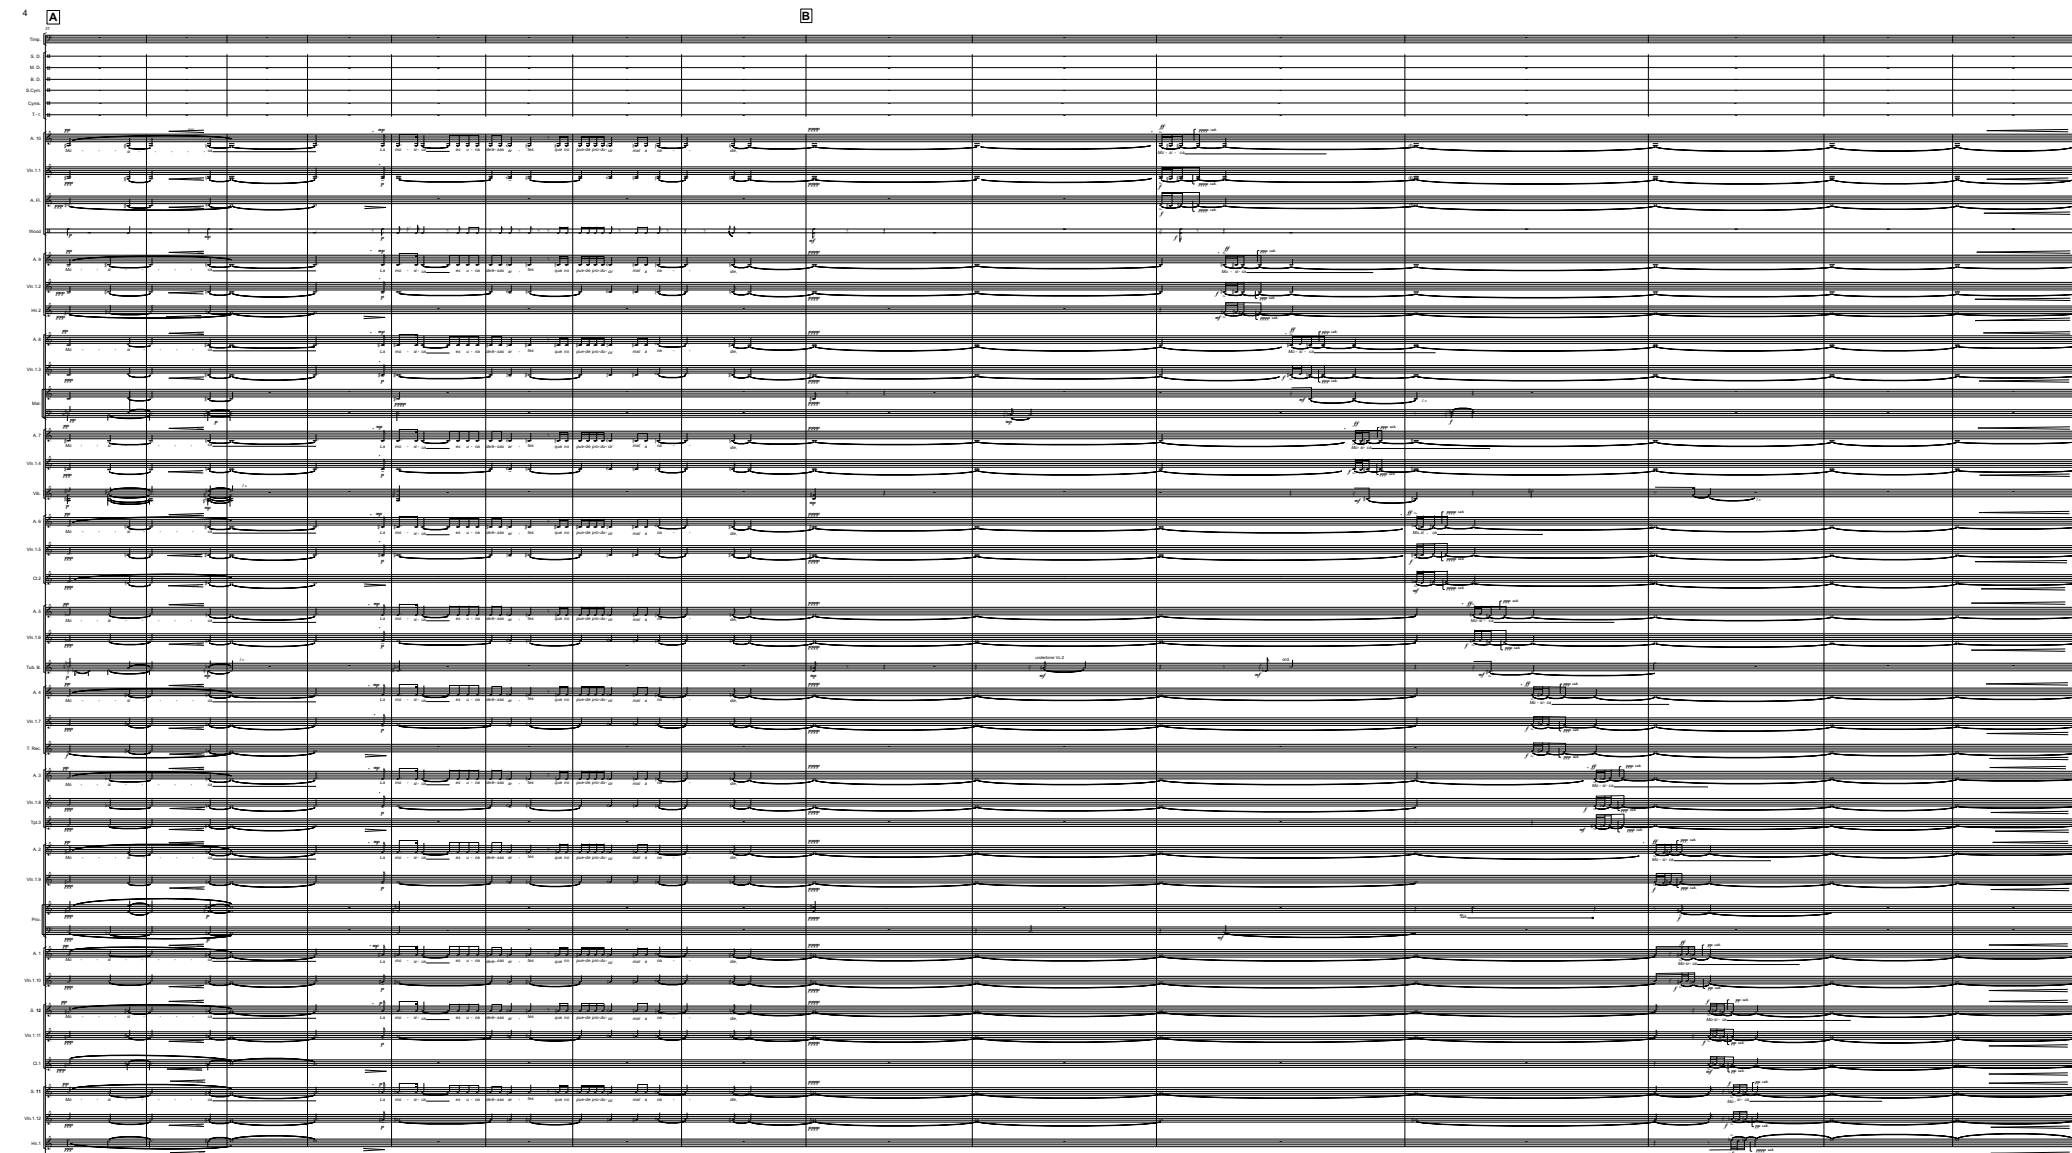

First option: Circular space with Audience in the center

Second option: Classical spacing

CONDUCTOR

This image displays a page from a musical score, likely for a large orchestra. The score is organized into measures, with various musical notations including notes, rests, and dynamic markings. The page is divided into two main sections, labeled 'C' and 'D' at the top. The notation is dense, with many staves for different instruments. The page includes a legend at the bottom left, indicating that solid lines represent 'in maintained' and dashed lines represent 'gradual change'. The page is numbered '2' at the bottom center.

Section 1: Introduction and Setup

Initial parameter settings and system configuration. Includes a table of initial values for various parameters.

Parameter	Initial Value	Unit
Temperature	298.15	K
Pressure	1.01325	bar
Concentration	0.1	mol/L

Section 2: Data Collection and Analysis

Experimental data points and calculated values. Includes a table of experimental results.

Time (s)	Temperature (K)	Pressure (bar)	Concentration (mol/L)
0	298.15	1.01325	0.1
10	298.15	1.01325	0.1
20	298.15	1.01325	0.1

Section 3: Results and Discussion

Summary of findings and conclusions. Includes a table of calculated values.

Parameter	Calculated Value	Unit
Temperature	298.15	K
Pressure	1.01325	bar
Concentration	0.1	mol/L

Section 4: Conclusions and Future Work

Summary of findings and conclusions. Includes a table of calculated values.

Parameter	Calculated Value	Unit
Temperature	298.15	K
Pressure	1.01325	bar
Concentration	0.1	mol/L

This image displays a page from a musical score, specifically page 6, as indicated by the page number at the top center. The score is written for a large ensemble, including multiple string sections (Violins I, Violins II, Violas, Cellos, Double Basses), woodwinds (Flutes, Oboes, Clarinets, Bassoons), brass (Trumpets, Trombones, Tuba/Euphonium), and a vocal section (Soprano, Alto, Tenor, Bass). The notation is dense, with many notes, rests, and dynamic markings (e.g., *f*, *mf*, *ff*, *pp*). The score is organized into measures, with bar lines clearly visible. The bottom of the page features a large, stylized graphic element, possibly a logo or a decorative flourish, which spans across the width of the page. The overall layout is professional and typical of a high-quality musical manuscript.

This image displays a highly detailed musical score, likely for a contemporary ensemble or orchestra. The score is organized into four main systems, each beginning with a 'MELO' (Melody) section and followed by a 'Piano' section. The notation is dense and complex, featuring a variety of musical symbols, including notes, rests, and dynamic markings. The score is written for 12 parts, with each part represented by a separate staff. The notation includes a wide range of musical elements, such as clefs, time signatures, and performance instructions, suggesting a highly technical and expressive piece of music. The overall layout is clean and professional, with clear demarcations between the different sections and systems.

II. Collage - Fresco

Salvador Torré

K

J = 60

* Each concertino will select a piece of music from their repertoire, which has perfectly well mastered and assembled, this can be a concert movement, single piece, studio, prelude, fugue, etc. exclusively from the concert music repertoire (classical music). This can be any time in the history of music (classical), between a minimum of 5 and a maximum of 10 minutes. It must play it exactly as it is the original, with its tempos, its dynamics, its rallentandos and original accelerandos etc. etc. Each soloist must play totally independent without listening to the other musicians around them! Do not let go for any tempo, no dynamics around you.

Eventually you can stop at the end of a large section of your solo and continue later as it is the original. In the case of loud instruments, such as the piano, choose a movement in a way that does not predominate over the other instruments (although it could be possible in certain cases, explained below).

Everyone plays their full movement and upon finishing, simply waits in silence for the conductor for the next signal. It is not necessary that all begin or end at the same time but within 10 minutes. At most. Exceptionally there can be a piece to duo or trio, as long as it is perfectly well assembled, mastered and performed, and the musicians are close to each other to be able to interpret it. You can also select certain periods of music history such as , Music between 1850 and today, or just old music, or just music today, or music of the last 10 years, or any period, or only music from your Country (only concert music), depending on the tribute and / or Celebration where this piece is executed, in any of the cases described here or its multiple options, all must be exclusively of the so-called classical music. As for the tutti or the orchestra that does not play the solos, the time in the score is calculated to last 10 minutes, that is to say 150 measures in 4/4 to a tempo of quarter = 60. The conductor will mark the time of quarter = 60, being able to model the orchestral mass to his musical criterion, for example organizing the entries of each soloist as he deems convenient, but holding steady from the beginning to end of the movement, quarter = 60.
