Jazz introductions, turn arounds and ends vol 7 by S.Ansons

Here is the 7th and last volume of Jazz introductions, turn arounds and ends for Jazz standards and spiritual songs. Several of them start with a Polychord as I found that the chord sequence used to relax the Polychord tension could provide a good path leading to the song's starting chord. As usual, at the end of this collection, you will find 2 indexes: one by song, one by key.
