About Notation

Many of Nathan Shirley's compositions contain little or no articulation or dynamic markings. This is not because they should be performed expressionless -- instead interpretation is left largely to musicians. In other cases dynamics and articulations will be found; bear in mind these represent only one possible interpretation and are offered as suggestions only.

Grace notes with slashes should be played before the beat (they will always appear as 1/16 notes).

Grace notes without slashes should be played on the beat (they will always appear as 1/8 notes, and often be found before trills, indicating the trill should begin on the upper note rather than the lower).

Trills will occasionally be written as two-note chords to indicate precisely which two notes should be played. This also allows for trills between intervals larger than a second.

Terms of use

This music may be downloaded, copied, and printed at no cost. However, without explicit permission there are two limits of use: 1) You may not use the music for monetary gain. 2) You man not alter the music from its current state.

If you wish to professionally perform this music, broadcast it, arrange/transcribe it, license it, or in any way alter or profit from its use, write to Music@NathanShirley.org with a brief description of the project. In many cases basic information about the potential project is all that is required before approval is granted.
